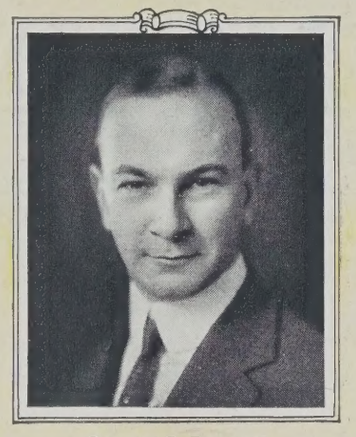
At Ward's—Quality Comes First

A PERSONAL MESSAGE *from the* PRESIDENT *of* MONTGOMERY WARD & CO.

LAST YEAR over eight million people bought merchandise from Montgomery Ward & Co.

Over one hundred thousand people sent their orders to Ward's *in a single day!*

These are amazing figures. But the important fact to you is not the vast numbers that buy from Ward's, but the *sound reasons* for so many selecting Ward's as the place to do their buying.



GEORGE B. EVERITT

Eight million people all over America, with opportunities to compare Quality and Price in thousands of localities, prefer Ward's only because they find here a *greater Saving and more Complete Satisfaction.*

Eight million people cannot be wrong! Such widespread testimony to Ward's Service, Satisfaction and Saving is complete proof that here is a very real Saving and a Service for you, too.

On the opposite page we print a few letters from our customers. Each day many such letters come to us from some of our eight million customers. The story they tell is one of Value, of Quality and of Low Price. And these are the advantages Ward's offers to you—a saving on reliable, quality-tested goods, with your satisfaction assured by our absolute, unfailing guarantee.

In three years the number of our customers has increased from five million to eight million! The news of Ward's lower prices and better quality has spread from one home to neighbors' homes—*bringing us in three short years a total of three million new friends!*

Such is the reward for conducting our business upon the policy of "Quality First—then Low Price." We never "skimp or adulterate" to offer a "price bait." Your satisfaction is our first aim—always. *We never sacrifice quality to make a low price.*

We have eight million good friends made by honest merchandise, low prices and courteous treatment. Some of these customers have been dealing with us for more than thirty years! We will continue to enjoy their patronage just so long as we deserve it. And to *deserve* it, to be of value and service to them *and to You,* is the desire and the duty of every officer and employee of Montgomery Ward & Co.

The NEW IDEA in Fashion continues to make astonishing progress

THE TEST IS COMPLETE

The woman of today buys clothes with a new confidence for the NEW IDEA *brings a new assurance of charm and quality*

NOW WELL DRESSED WOMEN TELL US:

"Buying style was always an uncertainty, because of the great variation in quality and materials—Today I order happily and securely."

AND MANY OTHERS WRITE:

"Now I feel as sure of getting what I want as if I had visited and selected on Fifth Avenue."

WHILE ANOTHER SAID THIS:

"They showed me the beautiful things they bought at Ward's, so I ordered a dress—I am ever so pleased. My friends here are all talking about your NEW IDEA Shops."

and so the NEW IDEA *grows!*

FROM a small experimental beginning, the NEW IDEA has soared to a great demand in less than one short year. We found that while our customers demanded new styles, they also demanded *good* styles; that they not only wanted a dress that was new, but one that was beautiful; that was in good taste—and above all, one that would be becoming. They wanted styles that brought added grace and beauty—that had that indescribable touch which brings real charm to the wearer. And these women also demanded a material that was an honest material—a good material; in short, in every dress or coat, the best possible for the price.

Your Ideas Gave Us the NEW IDEA

You, our friends and customers; you better informed women, wrote us—told us—these things.

Your ideas have guided us throughout in establishing the NEW IDEA SHOPS. That is why we engaged some of Fashion's best authorities to help us choose styles that will please you best. That is why we are using *only designs from Paris or New York*—the twin style centers of the world.

You said you wanted a better quality of workmanship; clothes well made and neatly made. You did not want workmanship or material sacrificed to save an extra dollar—you did not want quality sacrificed to make a low price.

HERE your ideas have been carried out—HERE is a new and superior quality of workmanship—HERE in every coat, hat or costume is the very best material for the price.

So in this NEW IDEA you get everything that is best in style today—and in addition, you also get sound and honest quality of materials and workmanship which no one ever before thought possible at these very unusual prices.

The proof of the superiority of the NEW IDEA lies in what we have done in one short year. Today the business of our New Fashion Shops is probably the fastest growing in the United States.

Read How to Measure Below

Your Hat will be more becoming if it fits your head correctly. It is important that you give us your exact measurement. It is a simple matter to measure yourself by placing a tape line around the fullest part of your head, as shown. If you wear your hair coiled low at the neck, place the tape a trifle lower than would otherwise be necessary. **Be sure the hat you order is listed in your headsize.**

Typical French Frock

For Home—Club—Office

14 G 256 Have you longed for a French hand-made Frock? Here is an exact replica, with the same delicate tuckings and silk stitching (not hand-made, of course, but every bit as dainty) at a price which would hardly cover the cost of the material in a French frock. Two groups of pin tucks, placed between three wider tucks—double silk stitched—give a long front panel effect. Wide snap cuffs. Smart, four-in-hand tie of contrasting material. It would cost considerably more in a New York shop.

WOMEN'S SIZES: 34, 36, 38, 40, 42, 44-inch bust; length from back of neck to bottom of wide basted hem, about 43 in. State bust and length. Read "How to Order" on Page 51. Shipping weight, 1 pound 12 ounces.

14 G 256—Navy blue.
14 G 258—Marron glace (cocoa brown).

Fascinating Georgette Frock

For Happy Evening Occasions

14 G 282 The lilt of music, perfume of flowers, a gay, sparkling scene is vividly conjured up by this sheer, dainty frock of All Silk Georgette. Tinsel net covers the delicate pastel flowers that follow the scalloped edge of the blouse, and tinsel picot stitch outlines the flying panels of the skirt. Comes with full length slip of Tub Silk. Neck, armholes, waistline and skirt are piped in self material, evidence of exquisite care in finishing.

The All Occasion Frock

Slenderizing—Conservative

14 G 288 Do you want a dress that is always correct, always in good style? Here we illustrate a Frock in which you will be well dressed for any daytime occasion—a frock that has the simple lines and slender silhouette that are always a mark of good taste and never pass out of fashion. The narrow little vestee, of a contrasting color to match the over-collar and insets on cuffs, is trimmed with fancy buttons. Groups of full length tucks in front. That it gives a slenderizing effect is immediately apparent. What distinguishes this frock from others at the same price is the unusual quality of the All Silk Flat Crepe and the very careful finish.

Stunning Front Drape Frock

Rich Looking—Youthful—Deeply Girdled

14 G 294 This year the vogue of romantic Spanish designs has captured the fancy of Paris and New York, and of the many Spanish type frocks that have been created, none has had a more cordial reception than this charming model. The softly swaying front drape is gathered, under a fetching flower, into a gentle cascade at the left; rows of tucking girdle the hips, and the front plaited skirt carries out the feeling of graceful, easy motion that is so characteristic of Spanish costumes. The reverse surface of the glowing All Silk "De Luxe" Crepe Satin edges the front drape and covers the buttons. Tucking to match the girdle makes the cuffs.

All Silk "Quality" Flat Crepe

Combined With All Silk Georgette

14 G 300 Successful women appreciate that their greatest asset—in the home, in society, in business—is their appearance and wisely choose a Frock like this to enhance every natural charm. The flat box-plaits; the clever vestee, plaited below the yoke, which employs a looped button-trimmed tab of material; the revers, starting at the shoulder and tapering gradually down to the waistline; the inverted tucks which give a scarcely perceptible, but quite necessary fullness to the front—all add their share of chic and beauty which no woman can afford to overlook. Vestee, collar and cuffs of All Silk Georgette. Narrow tie belt.

Favored by Fashion

All Silk "De Luxe" Crepe Satin

14 G 330 The desirable Fifth Avenue frocks are of Crepe Satin, in which the lustrous surface glows against the dull finish of its reverse side. Here is a fine example of how attractive such a combination can be. Bands of the dull surface encircle the blouse, cuffs, collar and girdle, and are set into the front plaiting of the skirt. A novelty buckle catches the girdle in front, and a brilliant flower is poised on the shoulder.

WOMEN'S SIZES: 34, 36, 38, 40, 42, 44-inch bust; lengths from back of neck to bottom of hem, 43 or 45 inches. State bust measure and length. Read "How to Order" on Page 51. Ship. wt., 1 lb. 12 oz.

Narrow tie back sash.

Smart and Slenderizing
All Silk "De Luxe" Crepe Satin

14 G 528 The vogue for tiered skirts has no better exponent than this model in which line, fabric, color and fashion are so wisely developed to flatter the slightly fuller Miss' figure. The smooth suave sheen of satin always suggests slimness. Then we have unique banding of the new neckline—perfectly flat and smooth fitting—of the reverse side of the satin, edged with a contrasting silk Georgette. The interesting theme is now taken up by the looped streamer which falls from the softly shirred shoulder, where it is fastened by a bright rhinestone buckle. The hipline is defined by a silk moire belt, contrastingly piped, rhinestone button trimmed and fastened with a rhinestone buckle. Turnback cuffs, also of moire. Self material buttons make a step-up pattern on the skirt front.

← A Winsome, Graceful Frock
All Silk Georgette—Cleverly Designed

14 G 534 Surely a master designer conceived this subtle manner of adapting becoming fashions to the appropriate lines for the miss who is inclined to be slightly fuller than the regular misses' sizes. See how cleverly he has swathed the hips with crushed moire ribbon, finishing the girdle with a flat tailored bow at the left! Note the wisdom of the draped panels (applied to the silk georgette body of the skirt), which draw every suggestion of fullness down and away from the hipline. With what gracious ease the front bolero hangs down to the waistline. Every line of the Frock has been effectively planned, without calling attention to its slendering purpose. Carefully fashioned of All Silk Georgette with Georgette vestee, Moire collar and fetching moire frills for the cuffs. And it is a good quality georgette that will give you delightful satisfaction. Two-Piece Ensemble
For Many Occasions

14 G 540 An All Silk "De Luxe" Flat Crepe Costume for that formal tea or card party, becomes a charming theatre or dinner Frock when you slip off its pretty jacket. Yokes are the dominating note in this fine ensemble. For instance, a wide box plait in the back of jacket is cut by the wide V-line of a yoke. The same yoke is repeated on the sleeveless frock, without the plaits, however, because here plaits are used most generously on the front skirt. The sleeveless blouse top, of a pastel shade to contrast with the darker hue of skirt and jacket, is richly embroidered in silk and metal threads in an animated zigzag design that again simulates the modish yoke. Jacket with partly stitched front side plaits, has narrow buckle belt. Bands of contrasting color on sleeves.

MISSES' STOUTS: 16½, 18½, 20½, 22½, 24½, 26½; 35 to 45-inch bust; length from back of neck to bottom of hem, 42 inches. State size wanted. See size scale at top of page. Shipping weight, 1 lb. 12 oz.

Lovely All Silk De Luxe Flat Crepe
Pin Tucks, Box Plaits — Give Long Lines

4 G 580 Our fashion experts have been most discriminating in their choice of apparel for Madame who wears an extra size frock—most careful to choose up-to-the-minute designs that are correctly cut and proportioned to eliminate the curves which autocratic Dame Fashion has out-moded. Here is a typical "larger" frock in All Silk "De Luxe" Flat Crepe. The two-piece overskirt, box plaited in alternating widths, would be quite as smart on a size 16, yet here, combined with the elongating pin tucks and rows of buttons on the blouse, it plainly says "long lines." A pin tucked band makes a smart division in front between waist and skirt and trims the sleeves. Long, self-material streamers are attached to the pin-tucked collar, and can be worn as a tie or crossed and thrown over the shoulders, scarf fashion.

Stylish Pleated Flounce
Smart Tucks—Buttons

14 G 604 Fashion is ever on the lookout for new ways to convert simplicity into chic—and here she has attained her ideal, to perfection! An exceptionally good style for the stout figure, for its straight lines give a slenderizing effect. The material is All Silk "De Luxe" Flat Crepe—an unusual value for the price. A row of self-covered buttons and cord loops trim the side of the deep panel yoke on the blouse, and self-covered buttons finish the sleeves. There are rows of fine tucks on the long sleeves and on the wide band that forms the top of the front skirt flounce, the bottom of which is plaited. Exquisitely Simple

A Fashionable Union of Crepe Satin and Georgette

14 G 610 The many women who have written congratulating us on the superiority of style and fabric which distinguish our newer fashions, will be delighted with this new Dress. The excellent quality of the shimmering "De Luxe" Crepe Satin can be relied upon to retain the slenderizing lines which skillful designing and expert tailoring have imparted, and the style is certain to be most suitable to the figure of larger proportions. Long, straight lines are accentuated by the finely plaited front panels of All Silk Georgette which sway open to reveal a band of richly embroidered metal braid. The metal braid also trims wide cuffs and collar, and adds its brightness to the V-opening of the neck, finished with diminutive satin tie. Self belt ties center back.

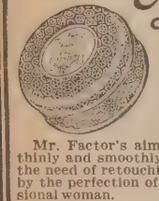
Max Factor's

COSMETICS OF THE STARS



Max Factor has for many years had charge of the make-up work of the largest motion picture studios and the foremost actors and actresses of the country. His preparations were used in the production of many of the greatest films: Thief of Bagdad, Sea Hawk, Ben Hur, Volga Boatman, Old Ironsides, Mare Nostrum and others.

Mr. Factor's aims have been to make preparations that may be applied very thinly and smoothly and to achieve a make-up that would remain all day without the need of retouching. His success in the professional field has now been followed by the perfection of cosmetics that accomplish the same aims for the non-professional woman.

How to Order

When ordering Maternity Corsets or Corset Brassieres, it is necessary to state only your normal measurements. Do not deduct for lacings. Every garment is cut full and provided with means for enlarging when necessary. There is no need to order larger than your usual size. To take measure see chart on Page 71.

All garments come fully laced, are easily adjusted and ready to put on. They may be used after childbirth to restore the normal figure, and are ideal for those who are suffering from abdominal complaints or for wear after abdominal operations.

All Wool Shaker Knit

Hand Finished—Reinforced

Haven't you often wished for one of those big heavy All Wool Sports Sweaters, one that gives almost the comfort of fur without any of its oppressive weight and one that is built to stand lots of hard service? I have it—and the price is extremely low, so low that I invite any man to compare the price with sweaters sold elsewhere for considerably more.

Their bigness, the softness and evenness of the Shaker Knit Stitch, the roomy, non-sagging, knit-in pockets, all bespeak their high quality, finished workmanship and superior materials. Firmly knit of All Wool yarns and hand finished, with special reinforcing at shoulders to prevent stretching and sagging.

The ideal garment for the outdoor man who wants a heavy duty, warm sweater that must take hard knocks day in and day out and stand up under the strain, and I guarantee them to give lasting, satisfactory service over a long period of time.

All Nashua Part Wool Blankets Bound With Sateen

Renowned NASHUA PART WOOL BLANKETS—marvels for warmth, because they're woven like all wool! Made from finest Oriental cottons, selected for their wiry, wool-like character, skilfully spun and interwoven with a small percentage of wool. This produces a deep, springy, wool-like nap, far more enduring, far warmer than many part wool blankets that sell at far higher prices. The same quality may be had either in the lovely tone plaids or plain colors shown at the left on the opposite page. All are attractively bound with high quality sateen. Considered by many to be the very finest possible values for the money.

Nashua CHINA COTTON

All Nashua China Cotton Blankets Finished With Stitching

NASHUA CHINA COTTON BLANKETS are finer, far warmer than other cotton blankets because the famous NASHUA texture weaves them almost like wool! The actual warmth of a blanket depends not so much on the material it is made of, as on the number of tiny air spaces imprisoned in its texture. These air spaces "hold in the warmth." That's why wool blankets are extra warm: the crinkly, fuzzy fibers create countless air spaces, whereas ordinary cotton fibers lie flat and smooth. The special NASHUA process gives to the selected curly China cottons, from which these blankets are woven, much the same warmth and enduring nap seen in wool.

NASHUA China Cotton Blankets may be chosen in any of the colorful plaids or plain colors pictured at the right of the opposite page. All are finished with strong lockstitch overedging.

Quality

Better quality must *and does* go hand in hand with our big sales. Only maintained quality brings customers back, time after time, with new customers—their friends. Thus volume grows—orders to manufacturers increase, factory costs decrease—and quality constantly improves at no increase in cost to anyone. Remember—we never sacrifice quality to make a low price. With us quality means your complete and unqualified satisfaction—in leather, in workmanship—in long life—in comfort—in fit—in style, and above all—IN VALUE.

Fit

Foot-ease for those who are active all day long. Comfort for tender feet. Sturdy strength for outdoor workers. Nature-patterned for growing feet. Whatever your age or occupation—for whatever purpose you want them, our immense stocks, variety of sizes and lasts permit us to unconditionally guarantee to fit every foot; and our simple-to-understand order size instructions are so easy to follow that you, too, will say with Mrs. H. C. Stearns of Newburyport, Mass.: "I find them a perfect fit; I could not have done better if I had been there and tried them on."

Selection

"A shoe for every foot and a price for every purse—and hundreds upon hundreds of each kind." No less would justify our position as America's Greatest Shoe Store. In our vast shoe stocks are assembled the widest assortment of sizes, the greatest numbers of shoes and the most diversified range of styles that have ever been grouped together by one concern in the entire history of the shoe business. We will fit you; we will please you—and we will save you money. These promises are backed by a 55-year old guarantee.

Price

Shoe prices are in direct proportion to the size of the order given to the factory. Any store must buy over 150 pairs in a single color and style in women's and men's ordinary sizes, exclusive of children's shoes, to supply just one pair in every width. Only because our tremendous sales permit us to buy hundreds and hundreds of pairs of each size, width, style and color, our factory production costs decrease. Then by eliminating all in-between profits, expenses and losses on unsold odd sizes, we bring selling prices closer to the cost of economical making.

Perfect Shoe Satisfaction Brings This Historic Success

"They fit perfectly—best for comfort I ever wore . . . I wish I'd known about your shoes before . . . Your shoes their shape fine . . . I would have to pay much more fo same shoes here. . . . Ward's $3.25 Boys' Shoes would cost here". . . . . These exact words from recent customer express the shoe satisfaction of millions.

SWEEPING to supremacy through more real value per dollar—and be superior quality and faithful service always win. This reason for our astou increase of nearly three million pairs in four years is no secret to you who already discovered the full measure of value in footwear from Ward's.

But to you who have yet to learn, please remember: The only difference bet retail shoes and Ward's $2, $3 or $4 lower prices, is just that difference betwee *immense cash buying* with only one small profit added, compared with *retail "hand-to-mouth"* buying of small lots where large profits, and several profits, are neces

The Wonder Work Shoes of All America!

Here's one letter picked at random from hundreds which we receive acclaiming these great shoes. **W. G. Ledbetter of Grant, Ala., writes:**

"I've been ordering these Shoes from you for the last fifteen years. I have been wearing my present pair for twenty-two months—the longest a pair of Shoes ever lasted me."

Only the toughest genuine leather is used in every part of these shoes. The upper is tanned like the famous old-fashioned "wang" leather, which makes it soft, extremely durable and soil-acid resisting. Two heavy soles on each shoe, one of oak leather and the other of green chrome leather, both the same high quality. Solid leather heels, counters and insoles. These are, unquestionably, the most famous work shoes in America—the quality brings you $4 to $5 value for only $3.35 a pair. **That's why we sell 100,000 pairs every year.**

Ward's Six Months Guaranteed Work Shoes are the very best quality leather, and give you six months of service. Should they fail to wear six months, we guarantee to replace them with a new pair of shoes, charging you only for the number of days you had the old pair and crediting you with the number of days they failed to wear. This guarantee applies only to shoes number 24 G 1820 and 24 G 1825

Benefactor Pressure Cured Rubber Footwear

Pressure Cured Process Molds Entire Boot Into One Mass and Does to Rubber What Tempering Does to Steel

Our boots are made only from fresh, live rubber as it is taken and cured direct from the rubber trees.

Perry Fawley of Conrath, Wis., says: "Benefactor are the best rubber boots I have ever bought, and I have bought many pairs."

Every pair of these Benefactor Boots is made by the patent process which vulcanizes the entire boot into one solid piece. The most modern method in use today, it makes these boots extremely tough, yet they have all the flexibility of the natural rubber. Reinforced all the way down through the sole. Full friction lined and reinforced with extra layers where the wear is hardest. Without a doubt the greatest values we have ever seen in rubber boots.

It proves that finest quality gives most satisfaction. These are the very finest Pressure Cured Rubber Boots made and are easily the equal of the average $6 boot. Knit-to-Fit With the Comfort Foot

- permanent shape
- snug-fitting comfort
- lasting fit

The Knit-to-Fit idea represents a superior type of knitting. Starting at the toe, the foot is knit to the proper shape and size without a seam in the sole. Stitches are added or dropped in the knitting at the toe, heel, ankle and calf, making a shape that lasts throughout the life of the stocking. The exaggerated sketch above shows the distinctive stitching of Knit-to-Fit hosiery.

"In presenting ***Weartwist*** Hosiery I do so with the assurance that you'll be more than satisfied with its warmth, wearing qualities and appearance.

"***Weartwist*** yarn is a combination of twisted cotton and wool, using only the long fibers of each. It is made according to the same principle followed in making twine, rope and cable. First the cotton is combed and twisted into yarn; then the wool is subjected to the same process. These two are then twisted together to make ***Weartwist*** yarn. The wool gives warmth; the cotton strength. From the time the process is started until completed the yarn is subjected to four complete twists.

"***Weartwist*** stockings are soft, pliable and dyed in the very latest colors, made in various sizes, weights and styles and are very moderately priced. They are made especially for boys and girls who are hard on stockings and I am confident you will save many hours of darning by buying ***Weartwist*** hosiery."

All Wool—Fur Lined Raccoon or Marmot

Style and comfort demand fur lining in these "Longtime" quality Coats. They're our two most popular models and as dressy as those fine coats you see in the windows of the best fur shops. Judge their quality, by the excellent materials and workmanship in them—not by their moderate price. Both are of fine finished All Wool Melton cloth, for its resistance to wear.

The $42.50 garment is our very best fur lined coat and one you'll prize highly. It has a body lining of brown marmot fur. The large marmot collar is so deeply brown that it's almost black.

The $29.75 coat is lined throughout body with black pieced raccoon fur. Large collar is black coney fur. Every season adds to the popularity of this wonderful coat.

Both garments have an interlining that adds permanent shapeliness to style and service. Sleeves are lined with quilted sateen. This is the Way to Measure

Men's, Young Men's and Youths' Clothing

Please don't guess at measurements. Every time you order clothing, take measurements anew. Just send us the necessary measurements, taken correctly; it will help us to select garments of proper size.

State Exact Measurements

All of our clothing is cut over full size patterns to fit the average figure, so do not make extra allowances. State the exact measurements taken, as we show in pictures at right and also always *state height, weight and age*. This information is a great help in fitting men.

How to Measure

Have someone take the measurements for you. Do not try to measure yourself. Be sure to write the correct sizes plainly, to avoid mistakes.

Measure the Chest

Chest measurement should always be taken over the vest for Suits, Overcoats, Mackinaws, Blanket and Sheep-Lined Clothing, Overalls and Rain Clothing. Place the tape all around the body, close up under the arms, and bring forward across the chest. Let arms hand straight at sides. Do not take this measurement too tight, and do not allow tape measure to slip down in the back. Make no allowances, as our garments are all made to fit measurement taken over vest. State exact measurements. *See picture above.*

Measure the Waist and Inseam

Waist. Place tapeline all around your waist just ab ve the hips, over your trousers like a belt. Do not take this measurement too tight for the most comfortable fit. Figure 2 at right shows you just how to take this measurement.

Inseam. Length as indicated by arrows. See Figure 3. To find easily the proper inseam measures, have the tapeline placed close up in the crotch and continue down the inseam of the trousers to the desired length, as shown. If you order cuff bottom trousers, the inseam measure should be a little shorter than for plain bottom trousers. It is impossible for us to make definite recommendation as to the length, because every man has his own idea about how long he wants his trousers.

Clothes That Make Records *for* "LONGTIME" Service

Two Serges of Quality at Prices That Appeal

Both All Virgin Wool

Men, these Suits are not only the good looking kind, but the good looking "Longtime" wearing kind. Most clothing looks good when you put it on, but the real test of quality comes months later. That's why we justly point with pride to the service you'll get from this suit all through the first year and into the second. We know it's made right of fine All Virgin Wool Serge, and do not hesitate to recommend it to you.

As for value, just consider what R. C. Rector of Chesapeake, Ohio, writes: "Many have spoken of the perfect fit and quality of the goods, and have placed it in the $25 and $30 class."

This is a stronger statement than we wanted to make, but after you see the fine tailoring and feel the excellent serge, you too will say ours is a most moderate price.

Made of an extra fine quality close twilled All Wool serge—a material which has no superior for wear and dressiness in medium weight fabrics at this price. In navy blue or dark gray for practical wear the year 'round. Coat is full lined with strong alpaca and interlined with haircloth in front for permanent shapeliness. Vest is regular 5-button style and trousers have cuff bottoms that measure about 17 inches. Left hip pocket has a button. All strain points are reinforced and linings and pocket materials are of the best.

Real Value to Talk About

All Wool Worsteds

They say men rarely talk about their clothes, but wearers of these Suits are spreading enthusiastic praise about them everywhere. You'll feel that way about it, too, after you see this wonderful value. The low price for such quality, we believe, is amazing. Made of a warm, heavy weight All Wool worsted usually found only in $35 garments. Not the hard, wiry fabric so often used in suits today, but a high quality soft feeling cloth that looks well and makes an ideal wearing garment.

Choice of three desirable conservative dark patterns: striped dark blue, striped dark brown and striped black. They'll add dignity and a sense of well-being to your appearance for business or social wear.

Tailored in our own factory where we carefully supervise every detail of manufacture. Coat is full lined; vest is regular 5-button model; 17-inch cuff bottom trousers. A very desirable suit of guaranteed quality.

The majority of well dressed young men do not wear expensive suits. The moderate priced model that combines good taste in style with a sturdy attractive pattern that will stand the gaff, is invariably the popular choice. That's just the reason why our LONGTIME models enjoy a decided preference today.

Our $19.50 suit is a big favorite. The popular trend of smartness and neatness is aptly tailored under rigid supervision, into the clean cut lines. The All Virgin Wool worsted, navy blue fabric of diagonal weave offers the very best obtainable in suits within the price range—in fact it is far superior to many in the more expensive models. You can be sure that it will stand up throughout the life of the suit and keep you neatly dressed at all times. It is half lined with alpaca. The double breasted style is distinctively broad shouldered and tapers slightly at the hips. The lapels are correctly shaped. The 5-button vest and the 19-inch cuff bottom trousers fittingly become the general style.

Our $12.50 suit is exactly the same in style as the one above with the same high grade tailoring and substantial construction. The sturdy diagonal weave navy blue material is one-third wool and full lined with strong twill.

I wanted to give our customers a Cap that would be supreme in style and faultless in finish—one that I could offer without question as the greatest value in America. Here it is! Arrangements were made with one of the leading woolen manufacturers in the country to make the cloth. Being situated right in the heart of the sheep country he had the pick of the woolens. He set his looms to produce an exclusive, wonder wearing All Wool cloth in becoming color combinations.

To have the workmanship in keeping with this fine quality I sent this material to our very best cap manufacturer to style and shape it with all the skill at his command. Satisfied with the quality and workmanship I next turned my attention to price. By close figuring of cost I am proud to offer a cap of $2 style and quality for only $1 39. It's made for winter wear, too—the warm lined inband pulls down over the ears affording cold weather protection. I've had it lined with a good grade of lining. The visor is unbreakable, of course. Remember—in style, in quality, and in value here is the fullest measure of cap satisfaction.

Snappy and Stylish
Wool and Silk Suiting With Longies or Knickers

This Suit will meet the exacting requirements of that particular young boy of yours who wants a lot of style in his clothes. He'll be well dressed in this garment which has pep and smartness tailored right in. The three-button single breasted coat—with the small open notched lapel that gracefully rolls to the first button—can't be beat for attractiveness. It's the style college boys—accredited style leaders—have enthusiastically endorsed. The roomy straight hanging, wide bottomed trousers together with the 8-button double breasted vest lend a degree of distinction usually found only in garments much higher in price. If you prefer this suit without longies, then you'll like the popular full-cut, full lined knicker suit which also has the new double breasted vest.

The material in this sturdy, wear resisting suit is a smooth finish, winter weight cassimere 65 per cent wool and 35 per cent silk that will stand the hard wear lively boys will give it. It's a beautiful medium gray with a fancy stripe and herringbone pattern.

It's a knockout for looks! The workmanship follows the same rigid adherence to high principles of standardized quality that we require in our men's suits. The cut is correct—the seams are strongly sewed to prevent raveling—all the pockets and strain points are bar-tacked to guard against ripping. The coat is lined with durable cotton twill to match.

A Remarkable Value!
Special Fabric—Wool and Silk

Mothers, this Suit just shows you what can be done with a special fabric, specially tailored, to give you a value hard to find anywhere in the country except at Ward's. We're selling this Longie suit at $6.95 and the Knicker suit at $5.98. Look at garments similarly priced elsewhere and you'll see how they fall far short of Ward's "Longtime" Quality.

For instance, what other suits at this price can boast a cassimere that's 50 per cent All Wool and 50 per cent Silk—a fine, warm wear-resisting fabric we had woven during slack time, when production costs are lowest? You have no idea how that Silk brightens and beautifies the material. The fancy weave fabric with deep rich harmonizing shades in an interesting medium gray with popular lightening stripe and plaid will give proper pride of dress to that boy of yours. Just read these specifications which we sent the manufacturer —they tell the whole extra-value story in a nutshell.

"Carefully design in the latest six-button double breasted model. Cut with broad shoulder effect narrowing downward to snug fitting hips. Emphasize this athletic effect by making broad peak lapels. Give trousers special attention—make slightly wider and straight hanging with regular 1½-inch cuff bottoms. Line coats and knickers with a good grade of lining. Serge, reinforce and double stitch all seams, seat and inseam at crotch. No vest—the double breasted coat will be amply warm for winter wear." They carried out our specifications to the very letter, and as a result you can buy a boys' suit of a quality we have never seen equaled at this price.

$1.59 Our Big "Longtime" Knicker Value

The fabric used in these Knickers is one that we have just developed. After many seasons of tireless effort we have produced this tough textured winter weight cassimere that we know is a "bear for wear." It's about 50 per cent wool and 50 per cent cotton. Besides we have added a double thickness of this wear resisting material where the boy gives his garment the hardest wear—in the seat and knees. Good grade of unstarched lining and pocketing—we've strongly reinforced all parts where the strain is greatest.

The patterns are beautiful—one a medium brown the other a medium gray with the very latest diamond weave. Garment is full cut and nicely tailored and is practical for dress or play.

We are sure that you will get as much service from them as you would expect from two ordinary pairs. We will let you be the judge and after many months of rough and tumble wear we are sure you will be more than satisfied.

An Extraordinary Suit Value

Fine Winter Weight Cassimere Newest Style and Pattern

You just bet your boy has ideas of his own in clothes preference. Just show him the picture of this manly little Suit—so much like daddy's—and he'll tell you how well he likes it.

L. O. Ross of Stockton, Ill., who has a growing boy to clothe, writes: "Both the youngster and myself are well pleased with the Suit, and I am sure I saved 30 per cent by purchasing from you." And Mr. Ross will find, just like thousands of fathers and mothers, that for sturdy wear this suit is hard to equal.

A Very Beautiful Pattern

Mothers, you've never seen a more handsome pattern nor a more cunning style for that youngster of yours. It's the most unusual and attractive combination of bluish gray in a plaid that's ever been offered our customers. We've added 25 per cent beautiful, lustrous silk to the 75 per cent wool winter weight cassimere to achieve this specially blended color and to add strength. Plenty of pockets where every lively boy wants them. The breast pocket is lined with a special colorful lining. Pull it out and it looks just like a pretty pocket handkerchief.

Sturdiness has not been overlooked. Fabric of suit and the strong twill lining of coat will stand plenty of hard wear. And still it's a very inexpensive garment!

A Garment

Mothers, this is such important news about our boys' all denim "Pioneer" Overalls that I want to tell it to you myself. I've made them entirely of 2:20 white back blue denim, which I know will stand the hard use lively youngsters give it. I've even made the front pockets entirely of this same heavy weight denim. At the price they're the best overalls made for boys. I've sent the manufacturer strict instructions to make them exactly like our men's 2:20 denim overalls—just as roomy, just as comfortable, but in boys' sizes. Overalls have continuous high back suspenders which are one piece, (not sewed on as many others are). In the jacket I've put three pockets, one of them on breast for watch and pencil and two lower pockets. I put a combination pencil and watch pocket on bib; two hip; and the two in front of 2:20 white back denim in the overalls. They're all bar-tacked. All seams triple stitched. Mothers, this message is my wholehearted recommendation for these boys' sturdy overalls. I know you'll like them.
